ST. LOUIS III SAILING TOWARD GULF OF MEXICO

Indianapolis Balloon Wins Cup for Going Greatest Distance.

INDIANAPOLIS, June 7 .- All but one of the balloons that started in the Aero Club of America's great national race Saturday have been heard from. Two of the balloons were shot at, but no one was hit.

The St. Louis III. is supposed to be sailing toward the Gulf of Mexico. The New York, with A. Holland as pilo came down at Corinth, Miss., at 5:10 m. today.

The Hoosier, Capt. T. S. Baldwi pilot, landed at Greenbrier, Tenn. N details regarding the landing of either had been received.

The Indiana, Carl Fisher of Indianapolis, pilot, and G. A. Bumbaugh, as sistant, had come near enough to ground at Schackle Island, Tenn., last night, to get a fresh supply of water. They had then mounted again to the higher currents to continue the race. Schackle is twelve miles north of Nashville.

The Cleveland, A. H. Morgan, pilot, and the University City, J. S. Berry of St. Louis pilot have drought from

Dr. Goethe Link, pilot, and R. J. Ir-win, assistant, flying the Indianapolis, won both the trophies in the great handicap race, which started at 3:45 Saturday afternoon, just preceding the national race.

The Indianapolis won the cup offered for the greatest distance by the In-dianapolis Merchants association, having approximately sixteen miles better than the Ohio. She also won the Fisher trophy for time in the air, having a margin of almost two hours over the

Indianapolis Victory.

The victory of the Indianapolis men and their 40,000 cubic feet capacity balloon is considered remarkable, inasmuch as they are new at ballooning. They started on their flight with but five bags of sand, or approximately 250 pounds of ballast, and were lightly provisioned. They made 235 miles and

were in the air nineteen hours.

A message to the Associated Press from them says their highest altitude was 13,000 feet, approximately two and one half miles. They were shot at twice as they went over Kentucky, but were

Looks Like Record.

If the balloon Indiana has not been disqualified by touching earth, it has broken the American endurance record by staying in the air more than forty-four hours. Since the balloon started in the national distance race of the Aero Club of America from this city Saturday, two reports have been received from it. One was that it had touched the earth in Tennessee and had taken on water and proceeded toward the south. If this betwee the balloon is disqualified under the rules of the international Aeronautic federation.
